

AMG Industries is a light-gauge, precision metal stamping supplier, offering a diverse range of products, processes and capabilities.

About

Founded in 1904, AMG Industries is an experienced metal fabricator, supplying products to the automotive Original Equipment Manufacturers, as well as to Tier 2 and Tier 3 suppliers. AMG is also a leading supplier of metal parts to a growing number of industries including Heavy Truck and Off Road transportation, Agricultural products, air/gas compressors, material handling equipment and other industrial applications.

AMG is centrally located in Mt. Vernon, OH and is a member of the Reserve Group of companies.

Capabilities & Qualities

AMG Industries received QS-9000 and ISO 9002 registrations in 1998. As our company moves forward with the ever-changing demands of industry, we shall continue our history of refining processes, acquiring new technology and maintaining the integrity of our products.

Stamping Capabilities

- Light to medium gauge, .10" to .125" / .25mm to 3.2mm
- Materials: all ferrous and non-ferrous metals
- Press tonnage capacity: 10 ton to 300 ton
- Bed Sizes: up to 96" left to right by 72" front to back
- Wide variety of automatic and secondary presses

Tube Bending

- Tube bending capability up to 3.00" diameter by .47" wall thickness
- End forming capability up to 6" diameter
- End form sizing up to 4"

Welding

- Mig, Tig, plasma, laser, and spot welding
- 13 robotic weld cells 4 plasma weld cells

Expertise

We have over 100 years of experience stamping & welding products in support of various industries. We are accustomed to working with challenging component architecture & Class A surface requirements. We welcome the opportunity to put our experience to work for you.

Products

Decorative Stampings & Full Assemblies - Welded fabrication, complex steel forming, and plastic interface components.

Exhaust Fascia Inserts - Stampings, Single Piece Collector.

Exhaust Tips - Welded Fabrication, Complex steel forging.

Gaskets/Shims - Multiple configurations (stampings, wire forms, special fabrications), Various metals (copper, stainless steel (300 series, Inconel, Hastelloy), brass, bronze), Various heat treatments and coatings.

Business Portfolio

Our list of clients includes some of the world's largest and most recognized companies, as well as dozens of small and midsize companies including, but not limited to:
